WORK EXPERIENCE

Frontend Engineer
Elpis

03/2021 - 04/2021   *Lagos*

Achievements/Tasks

- Elpis is a web application that I developed. Elpis is the simplest way to find, book, host, and monetize Zoom remote classes. I utilized react functional components to build the app, and route hooks, props, and react router dom to transfer props, functions, authentications, and all other necessary data across all of the components. To create the web application's UI, I used Material Ui.

Frontend Engineer
Freelance

07/2021 - Present

Achievements/Tasks

- I created an e-commerce website where customers can purchase various african-inspired gowns, jumpsuits, and other accessories. I used Material Ui to create the website's user interface, using Commerce JavaScript with the Chec API as the backend for all of the store products. I used react functional components to build the structure of the application and pass props between all of the components and react-router-dom to link them together. I also used Stripe to take payments on the platform.

Frontend Developer
Cecula limited

09/2020 - 02/2021   *Uyo, Akwa Ibom state*

Achievements/Tasks

- I made a web application for food vendors that allows them to easily build meal menus, bundles, and other items for customers to buy. I also built a job application website for a variety of categories, allowing consumers to apply for employment from the comfort of their own homes. Javascript, HTML, CSS, and Bootstrap were used to create this application.

EDUCATION

Surveying and Geoinformatics
Bells University of Technology

09/2016 - 09/2021   *Ota, Ogun state*

SKILLS

React   Javascript   Html   Css   Bootstrap

MaterialUi
